

SEYED ISMAIL BILAL S

Cyber Security Undergraduate | Aspiring Penetration Tester

Summary

Cyber Security undergraduate with practical experience in penetration testing fundamentals, network security, Linux administration, and web application security. Completed a Security Analyst internship and developed hands-on expertise through cybersecurity projects and TryHackMe learning paths. Proficient in security assessment, reconnaissance, traffic analysis, and offensive security fundamentals using industry-standard tools. Seeking an internship opportunity to contribute technical skills while continuing to grow as a Penetration Tester.

Education

Bharath Institute of Higher Education and Research

Bachelor of Technology (B.Tech)
Computer Science and Engineering (Cyber Security)
CGPA:8.3
2023-2027

Skills

- Python • C • HTML • CSS • JavaScript
- Kali Linux • Windows • Git • GitHub
- Nmap • Wireshark • Burp Suite • Metasploit • Gobuster • Nikto
- TCP/IP • DNS • HTTP/HTTPS • OSI Model
- Penetration Testing • Vulnerability Assessment • Network Security

PROJECTS

Personal Cyber Security Portfolio Website

- Designed and deployed a responsive cybersecurity portfolio using React, Vite, HTML, CSS, and JavaScript.
- Showcased projects, certifications, GitHub profile, LinkedIn profile, and downloadable resume.
- Integrated GitHub with Vercel for automatic deployment and version control.

Network Reconnaissance & Service Enumeration using Nmap

- Performed host discovery, TCP port scanning, and service enumeration in a Kali Linux environment.
- Identified open ports and analyzed exposed network services for security assessment.

Network Traffic Analysis using Wireshark

- Captured and analyzed TCP/IP, DNS, HTTP, and ICMP packets.
- Applied protocol filtering techniques to investigate network communication and troubleshoot traffic.

EXPERIENCE

Security Analyst Intern

- Assisted in vulnerability assessment and basic security analysis.
- Performed network reconnaissance and documented security findings.
- Worked with Linux environments while strengthening practical cybersecurity knowledge.
- Gained exposure to incident analysis and security operations.

CERTIFICATIONS

- NPTEL – Ethical Hacking
- Certified Network Security Practitioner (CNSP)
- Oracle Cloud Infrastructure Foundations Associate
- TryHackMe – Cyber Security 101 Learning Path
- TryHackMe – Pre Security Learning Path
- Windows Command Mastery for Ethical Hackers
- Offensive Agent AI
- Certified Red Team Operations Management (CRTOM)
